

**Miele**

Only **SmartBiz**  
can do it.

Miele Professional. Immer Besser.

SmartBiz knows what your business needs:

-  Just 36 min/wash cycle
-  Plug & Play
-  Intuitive operation
-  Conforms to the Machinery Directive
-  100 % Miele quality

# Your door to the world of commercial dishwashing

SmartBiz dishwashers are designed for both the highest quality of cleaning and to meet the needs of your business: this intelligent commercial solution combines excellent cleaning results with short programme times from only 36 minutes.

## SmartBiz for small businesses

# The right solution for every requirement

In hectic day-to-day life, hygienic crockery has to be ready for use again in next to no time. SmartBiz dishwashers are specifically designed to meet the high demands placed on commercial dishwashers and are therefore the ideal solution when dishwashers are used several times a day, for example in offices, shared working spaces, small guesthouses and B&Bs, nurseries, schools and other businesses with requirements that are similar to those encountered in domestic settings. As an ideal entry-line product into the world of commercial dishwashing, SmartBiz appliances are fit for everyday use, versatile and safe to use – and offer functions and features which make day-to-day life more efficient, safer and more convenient.

**Wherever you work, we can help!**

Do get in touch – we will work with you to find the perfect solution for your business.

Nurseries

Offices and coworking spaces

Guesthouses and B&Bs

# Only **SmartBiz** can do it.

The new SmartBiz dishwasher:  
The professional commercial solution that adds  
value.

## **Programme running time of only 36 minutes**

Excellent cleaning performance in next to no time: thanks to smart dishwashing technology and a high-performance heater circulation pump, SmartBiz appliances put the sparkle back on heavily soiled dishes in only 36 minutes. This makes them the ideal solution for fast crockery turnaround several times a day.

## **Simple Plug & Play connection**

Supplied with plug and supply lead: SmartBiz dishwashers are simply plugged into a conventional 230 V socket – and are ready to use straight away.

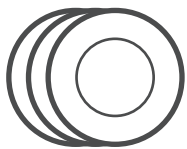

## **ExtraComfort baskets**

Ample space and maximum flexibility: all items fit easily into the carefully designed baskets, ensuring that residue is completely removed. The baskets have special features to accommodate everything from large plates to coffee cups and even delicate wine glasses safely.

## **Low consumption values**

Fast and efficient: short programme running times of only 36 minutes and smart dishwashing technology uses no more water, energy and detergent than absolutely necessary, saving costs and helping protect the environment. SmartBiz dishwashers have an A++ energy efficiency class rating.

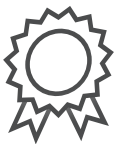

## Excellent cleaning performance

Special programmes with high wash and final rinse temperatures generates hygienically clean dishes. This is of paramount importance in settings where dishes are used by different people on a daily basis.

## Intuitive operation

Simple and self-explanatory: various dishwashing programmes and settings can be selected quickly and intuitively at the touch of a button. All eight programmes are labelled and the clear text display provides updates on programme timings and the current wash temperature – ideal if the appliance is being operated by different users.

## Conforms to the Machinery Directive

Safety for the entire team: SmartBiz dishwashers comply in full with the European Union's Machinery Directive 2006/42/EC which defines comprehensive safety regulations for commercial machines and hence protects your employees as they go about their daily work.

## 100 % Miele Professional quality

Miele Professional quality ensures long-term use. The performance and durability of our commercial machines in combination with intelligent dishwashing technology is a perfect match for commercial settings and creates the benchmark for exact cleaning performance, maximum efficiency and the highest demands on hygiene. As a supplier of systems with a blanket service network, we will find a perfect commercial solution to fit your needs every time.

## Convenient networking

Simple operation from a smartphone or tablet: with the Miele@mobile app, programmes can be selected, times left viewed and levels checked – at any time and from anywhere.

## Other sophisticated SmartBiz features

Only **SmartBiz**  
can do it.

### > **Low sound emissions**

SmartBiz dishwashers are very quiet in use, with sound emissions of only 45 dB(A) – quieter than a conversation in a room.

### > **For dry crockery in next to no time**

Even challenging load items such as plastic dishes dry before unloading. Thanks to the automatic door opening process at the end of the wash programme, the drying process starts automatically.

### > **Precise dispensing**

Automatic, convenient, precise: a small external dispenser module can be connected to SmartBiz dishwashers to precisely dispense liquid detergents. This cuts costs, reduces the impact on the environment and protects your team as detergent isn't dispensed manually.

### > **Matching cleaning agents**

The detergent and rinse aid from the ProCare Shine series were developed from the outset for use in Miele Professional dishwashers. With their special formulation, they form the basis of professional crockery care, guarantee ideal machine compatibility, are extremely economical to use and produce excellent cleaning results.

The detergents and rinse aid from the ProCare Shine series were developed to use in Miele dishwashers. With their carefully balanced formulations, they form the basis of professional dishwashing combining both economical efficiency and excellent cleaning results.

## Data, facts, specifications

# Added value in detail
