-  A+++ energy efficiency
-  Plug & Play
-  15,000 operating hours
-  100% Miele quality

SmartBiz.

Enter into the world of
commercial washing and drying.

New from Miele Professional:

Enter into the world of commercial laundry care

Whatever your business your customers have high expectations. They expect immaculately clean textiles whether that's towels in a hairdressers or table linens in a restaurant. Economical washing machines and dryers from the new SmartBiz entry-level model range were specifically developed for commercial use, boast short cycles, extreme durability and first class results. Both models are Plug & Play, ready for use, and are the products of choice in providing reliable washing and drying results for up to three times a day.

**100% Miele quality for
professionals like you**

More powerful, faster and more durable than domestic appliances: SmartBiz products are designed to cope with up to three cycles a day in a commercial environment and rise to the strain and duress over time in a way domestic appliances are unable to do.

SmartBiz PWM 300 washing machine

Clean laundry in the shortest of times

In the hustle and bustle of a working day, it is crucial that textiles are immaculately clean and ready for use again in next to no time. The PWM 300 SmartBiz washing machine guarantees perfect cleanliness and offers extremely short cycle time of only 79 minutes, ensuring that your laundry is ready for use again. This makes it the ideal proposition for up to 3 cycles a day.

SmartBiz PDR 300 HP heat-pump dryer

Gentle drying for beautifully soft laundry

Commercial textiles are often used to their maximum each day, every day, and therefore require specialist gentle care. The energy-efficient PDR 300 HP SmartBiz heat-pump dryer is the ideal counterpart to a SmartBiz washing machine. Thanks to the patented Miele honeycomb drum it protects fabrics and with PerfectDry, sports an intelligent system for exact drying results. As a result, your textiles are dried much faster and much more gently.

Only **Smart-Biz** can do it!

Fast wash programmes

ONLY 79 MINUTES
for perfect results

On days when you have your work cut out for you, your laundry has to be ready for use again quickly and without any fuss. SmartBiz washing machines achieve very short cycles of only 79 minutes*, washing faster than comparable commercial machines. Even if you have to wash several times a day, you can always count on a fresh supply of laundry.

Robust materials

TESTED FOR 15,000 HOURS
of heavy operation

Domestic appliances are not up to the rigours of commercial laundry care. Thanks to high-quality materials and a robust design, SmartBiz units are designed for 10,000 cycles or 15,000 hours of operation. Whether one or three washing or drying cycles a day: SmartBiz still produces top-class results even after many years.

Choice materials

Plan ahead with confidence
with products that last

Key components subject to wear and tear are made from durable, hard wearing materials, not plastic. Examples of this include the outer drum and drum ribs are made from stainless steel, cast iron and counterweights, the drum suspension and a pulley wheel made from die-cast aluminium.

*SmartBiz heat-pump dryers boast short cycles lasting only 125 minutes.

Patented technologies

CLEAN LAUNDRY and **GENTLE FABRIC CARE**

The patented honeycomb drum ensures that laundry is gently washed. And thanks to the innovative PerfectDry system, your laundry is dried faster, more evenly and more gently. This way, your textiles remain in great condition, even after many washing and drying cycles.

A+++ energy efficiency

SAVE ON DAILY COSTS **AND RESOURCES**

Running costs, maintenance and servicing of your machines all have a cost impact on your business. Smartbiz has a A+++ energy efficiency rating, and with their durability and reliability credentials you have total peace of mind. What's more, with innovative heat-pump technology the dryers consume around 60% less energy than conventional condenser dryers.

Plug & Play system

SIMPLY PLUG IN AND SWITCH ON

Both SmartBiz models are supplied fitted with a supply lead and plug, ready for operation, so that machines only need to be installed, plugged in and switched on. Things couldn't be simpler or faster.

Further SmartBiz features

2 machines that rise above themselves

With SmartBiz, it's about much more than perfect cleaning performance: designed for every day use, flexible and ease of use are key aspects on both machines. That is why SmartBiz models offer additional features which make your work more efficient, safer and ultimately more convenient.

Simple, intuitive operation

thanks to a rotary selector with plain text and a display providing further information

More laundry per cycle

large drum volume of 64 l for a 7 kg load capacity

Perfectly washed laundry

with a variety of washing and drying programmes for various textiles, e.g. 'Cottons', 'Minimum iron', 'Intensive', 'Woolens', 'Cleaning textiles' and many more

Considerable energy and resource savings

thanks to efficient and fast programmes and an A+++ energy efficiency rating

Increased flexibility

through matching accessories and the opportunity to use both models in a washer-dryer stack with a drawer or with a drawer and a plinth

Total peace of mind

thanks to Miele's excellent award-winning after-sales service

SmartBiz for small businesses
